Public “Scoping” Meeting

The Maricopa County Department of Transportation’s (MCDOT) **RightRoads Program**, is conducting the first in a series of two public open house meetings to gather community input about potential improvements along a 15-mile section of the McDowell Parkway Corridor between 339th Avenue and the Dean Road alignment. The McDowell Parkway Corridor Feasibility Study area is approximately defined by a two-mile wide buffer around the corridor generally centered upon the McDowell Road alignment. This study will focus primarily on corridor feasibility and a future roadway alignment based upon anticipated area growth and development.

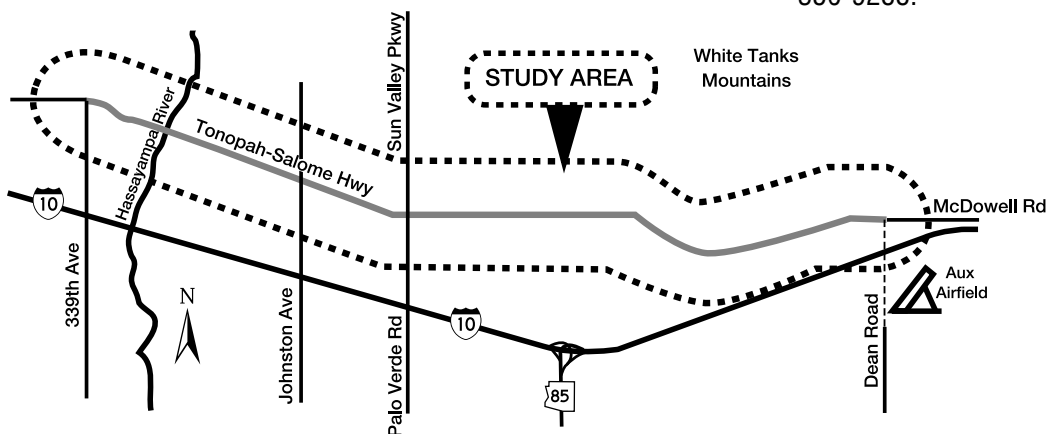

Proposed roadway cross sections, alternative evaluation criteria, and summary of evaluation of preliminary alternative alignments will be presented for public review and comment.
